

TEMPLATE 3**STSM outcome form**

STSM application number	Home institution & country	Host institution & country	NutRedOx WG	Objective of the collaboration	Results of the collaboration and related GAPG
COST-STSM-CA16112			WG n°X		

Notes:

- **NutRedOx WG:** please write the number of the WG within which the cooperation is meant to be established.
- **Objective of the collaboration:** you can report even the STSM title and maybe expand it a little bit to make it clearer, if necessary.
- **Results of the collaboration:** please write a very concise synthesis. We need just a few lines that convey the essence of the outcomes. You can write one or two sentences (no more), or make a list of key outcomes (just a few words for each item). Be aware that this information is meant to be presented as a record of a big table for the whole STSM programme: we don't need extended descriptions (as they are already reported in your STSM scientific report). GAPG = Grant Agreement Period Goals
